Chilling New Rocky Horror Picture Show will Terrify Audiences

Rocky Horror show displays a new level of horror to adoring fans

LOS ANGELES–October 18, 2016- Are there any devoted Rocky Horror fans out there? Do not despair. Fox is set to debut a brand new TV show that pays homage to the original Rocky Horror Picture show film in 1975 with Tim Curry and Susan Sarandon. But, the TV show has a surprising twist along with new cast members that makes new and old Rocky Horror show fans dying to see more. The synopsis of Rocky Horror Picture Show is a square couple played by Victoria Justice as Janet Weiss, and Ryan McCartan as Brad Majors who is seeking shelter from a storm, find themselves in a castle of a transsexual mad scientist played by Laverne Cox, who is intending to create a buff bodybuilder. The classic theme song “Let's Do the Time Warp Again” is used on the new Rocky Horror Picture Show to pay tribute to the fans. This show is set to premiere on October 20, 2016 on Fox.

“I think it's going to be really cool to introduce the Rocky Horror Picture Show to a brand new generation who probably wouldn't have been otherwise. Now a new generation is going to be able to sing along to the Time Warp.” said Victoria Justice, to a group of reporters. Justice was referring to her younger fans from Nickelodeon.

“I don't believe that we are re-making anything. To me, this is not a remake. You cannot remake the Rocky Horror Picture Show. But, you can pay tribute and honor it. That's what we wanted to do and accomplished.” said Ben Vereen, who is playing Dr. Scott.

ABOUT FOX

Fox is well known for great movies such as the first two iconic Star War trilogies, Die Hard, Titanic, and famous TV shows such as the Simpsons, The X Files, Modern Family and 24. Shirley Temple is the first 20th Century Fox film star. Marilyn Monroe, Betty Grable, and Jayne Mansfield were also famous film stars from Fox as well. You can find out more at <http://www.fox.com>.
